## WT Hotel 2011 / by Well-Tech

by admin on November 12, 2011 · 8 comments

 Like [Confirm](#)  1  0

**WT Hotel 2011**, “architeturational regeneration”, light and interchangeable layers together with the next-generation technologies dress the building as a second skin, transforming the spatial, functional and emotional perception of the building inside and outside.

**New skin**, a new architectural frontier of Well-Tech for Hotels and receptive structures. With close attention to the integration of these new architectural forms

with the most innovative solutions to reduce energy

**Adelzadeh Amin** November 12, 2011 at 11:53 pm

I like this.good concept...

**Lnasrif** November 13, 2011 at 12:51 am

Beautiful low energy building...smart design..most of all, is a gift for children in Syria..

---

**Marble Polishing** November 13, 2011 at 1:49 am

The renovation project started at beginning of 2009 and was completed by early summer of 2010.

**Zigajecar2** November 13, 2011 at 3:47 am

Well, besides that. How much deosn an island cost compared to some normal ground? Remember,these are CUSTOM MADE islands =D... It's all for the money.

---

**Thex74** November 13, 2011 at 4:10 am

Not really,the buildings are made to profit.Before we run out of oil,the preofit gained in those 50 years will be at least 200% higher than the amount of money they spent on building.
