Simple Design Suite Bedroom from The WT Hotel, Italy

Browse more deeply about WT Hotel, the following picture is the inside of the bedroom hotel suite. Design a room so beautifully with the dominant neutral colors like white. Simple but can create an atmosphere of a saint and maximum comfort to guests. The existence of the paintings on the walls and furniture arrangement with forest concept seemed so futuristic. Design room was clean. Regardless of who occupied it certainly would feel comfortable. That the concepts of WT hotels.
