Here's a [bedroom](#) suite located in [WT Hotel](#), this room especially designed with clean and essential lines as well as smooth, warm and natural surface to offers maximum comfort ability for the guests. The main interior color is white its look neutral and could create a beautiful relaxing space. The textile of the walls light up, showing a lightening design of a forest. The [closet](#) lightens up with its opening, emphasizing thus the engraved decoration in the interior corian surface. Once the doors close, the curved surfaces return to be white and neutral. Personally I like the [bed](#) design it's just simple but look so beautiful and futuristic.
