WT Hotel Design By Chiara Cantono

WT Hotel by Host has four areas of the hotel designed by Arch. Chiara Cantono Well-Tech team, studio tech handle planning and research in design and architecture with a focus on technological innovation. The represented areas are: Suite, Lounge, Restaurant and Wellness, which has installed the technology, furniture and modern accessories. WT Hotel is the project of a techno-sensory hotel which interacts with the visitor and brings them into a dimension of hospitality made of entertainment, interactive and ecofriendly materials, with luminous and sensory surfaces and technological furnishings inspired from the nature.
